### Foursomes Shot Allowance

Add the **playing** handicaps of one pair from Team A together. Do the same for their opponents in Team B. i.e., Team A = 17 and Team B = 28. The handicap difference between Teams A and B = 11. Divide this by 2 which equals 5.5. Any calculation resulting in 0.5 is always rounded up and in this case, it increases to 6. Therefore Team A (with the lower combined handicap) gives Team B 6 shots to be taken on holes with a stroke index of 1 to 6.

A correctly completed hard copy of the Result Sheet is required from **both teams** and **sent either via post or e-mail in the form of a scanned document** to the Assistant County Competition Secretary **within 5 working days of the match**. The form must be dated and clearly signed by both team Captains
